Hi Jake,

I hope the summer has been good. Here's a revised draft of the letter we sent to Las Vegas last month to require either reclamation or re-leasing of the areas in your small mine permit by November 1st. Considering the possibility of storms the nearer we get to winter, we are going to ask you to reclaim your disturbances by Wed, November 20th. If that will cause problems, please let me know.

I'll send a seed mix shortly.

I didn't think to ask for your input a few minutes ago, but, based on aerial photos, it looks like there are some relatively small areas on your leases that have been disturbed since we last talked in areas that weren't part of your approved permit. Any disturbance for which you are responsible will need to be reclaimed. Feel free to call and discuss if you have questions. It looks like some disturbed areas predate either you or Robert Drachuk.

I will plan to inspect reclamation after it has been completed, or after November 20th. Any updates from you are appreciated. Thanks.

Peter
